NORTH CAROLINA NEEDS MORE PORK

Hog Raising is a Safe, Patriotic and Profitable Farm Enterprise at the Present Time. There is a World Shortage of Meat and Fat
Which Must be Relieved

TALK THESE MATTERS OVER WITH YOUR COUNTY AGENT

SOME RECENT BULLETINS AND CIRCULARS ON FEEDING AND RAISING HOGS

Experiment Station Circular No. 24—"Soybean Pastures for Hogs."

Extension Circular No. 42—"The Sow and Her Two Litters of Pigs."

A cheap but effective hog house. See that the sows and pigs have shelter.

He will be glad to talk with you about the best feeds.

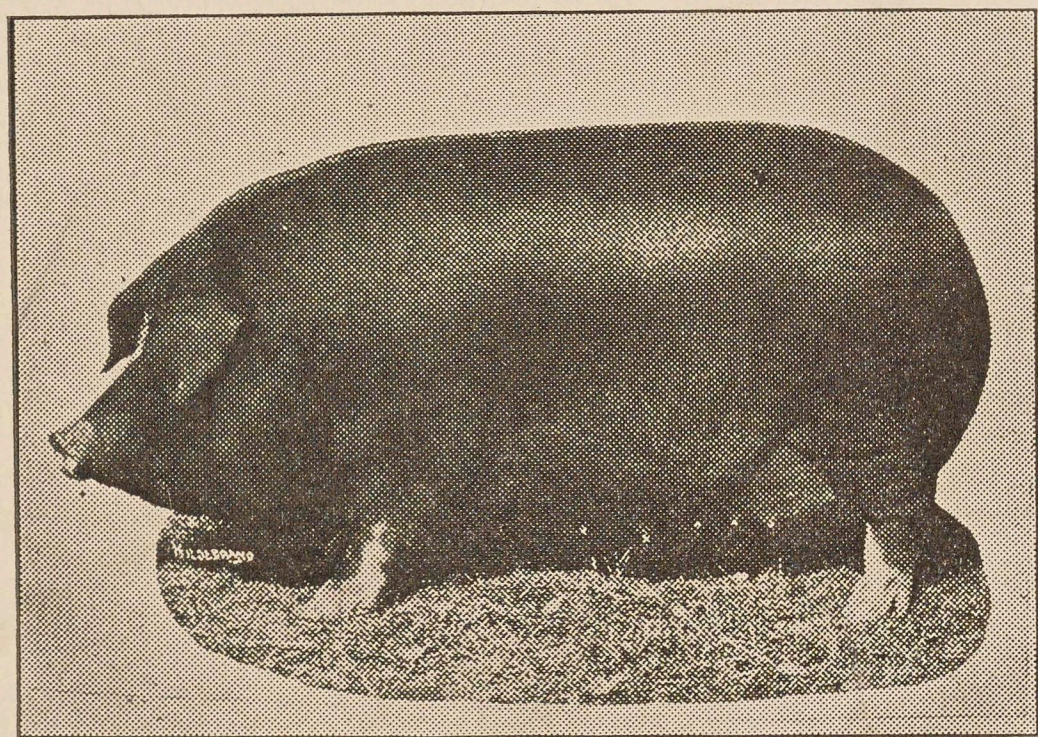

If you want to buy a brood sow, he can find one for you.

If there is something you wish to know about the best hog pasture crops, he can be of service.

If you want to be shown how to inoculate against hog cholera, he will demonstrate this for you.

If we are to feed our people, our armies, and assist in feeding our allies, we **MUST RAISE MORE HOGS** than we raised last year. Our Government is asking North Carolina to increase her number of hogs 10 per cent. This means

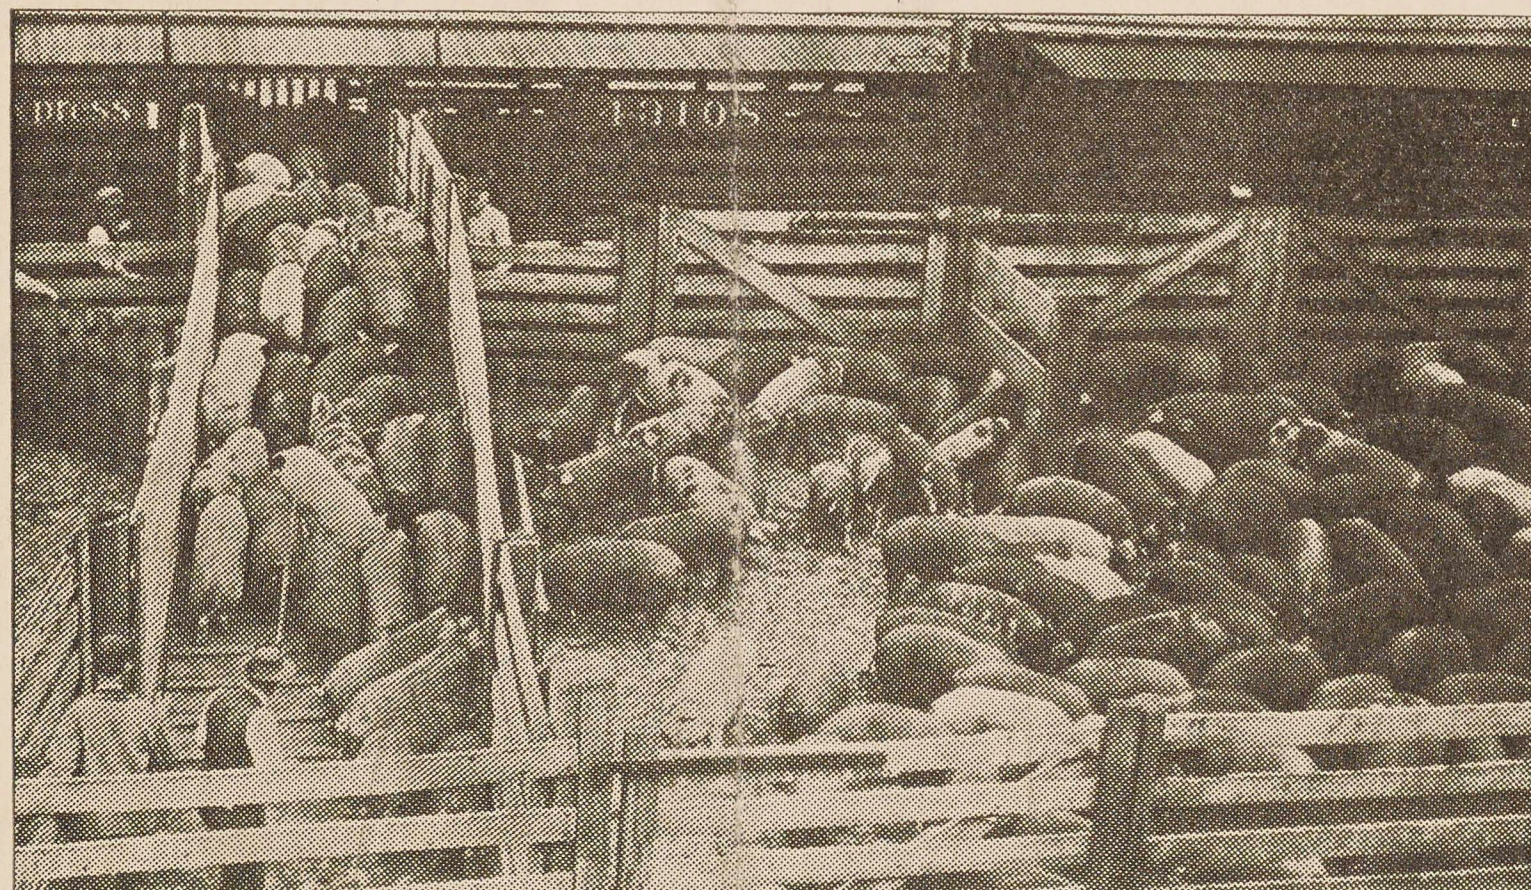

Extra Hogs for _____ County

A good Poland-China brood sow.

TO PREPARE FOR THE ABOVE INCREASE:

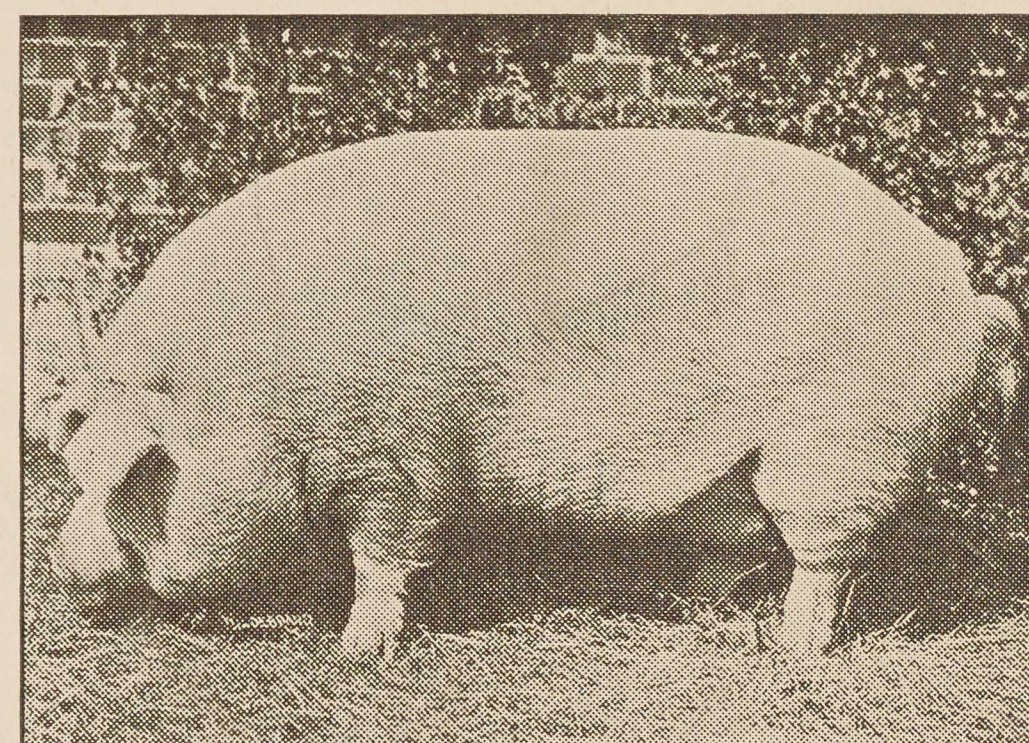

1. Prepare plenty of permanent pasture, as pastures insure economical pork.
2. Prepare plenty of temporary pastures this spring and next fall. Many temporary pastures are more valuable than corn.
3. Raise more corn this year than ever before.

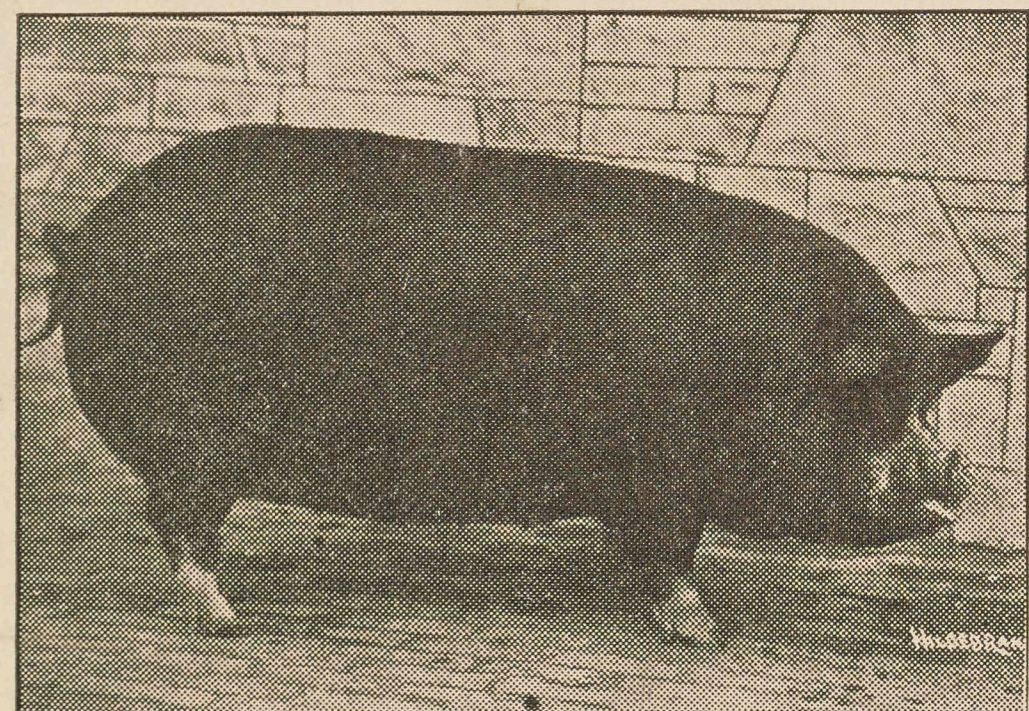

Loading hogs on cars. When this county does its part in the production of hogs, scenes similar to this will become common and frequent.

TO INSURE THE ABOVE INCREASE:

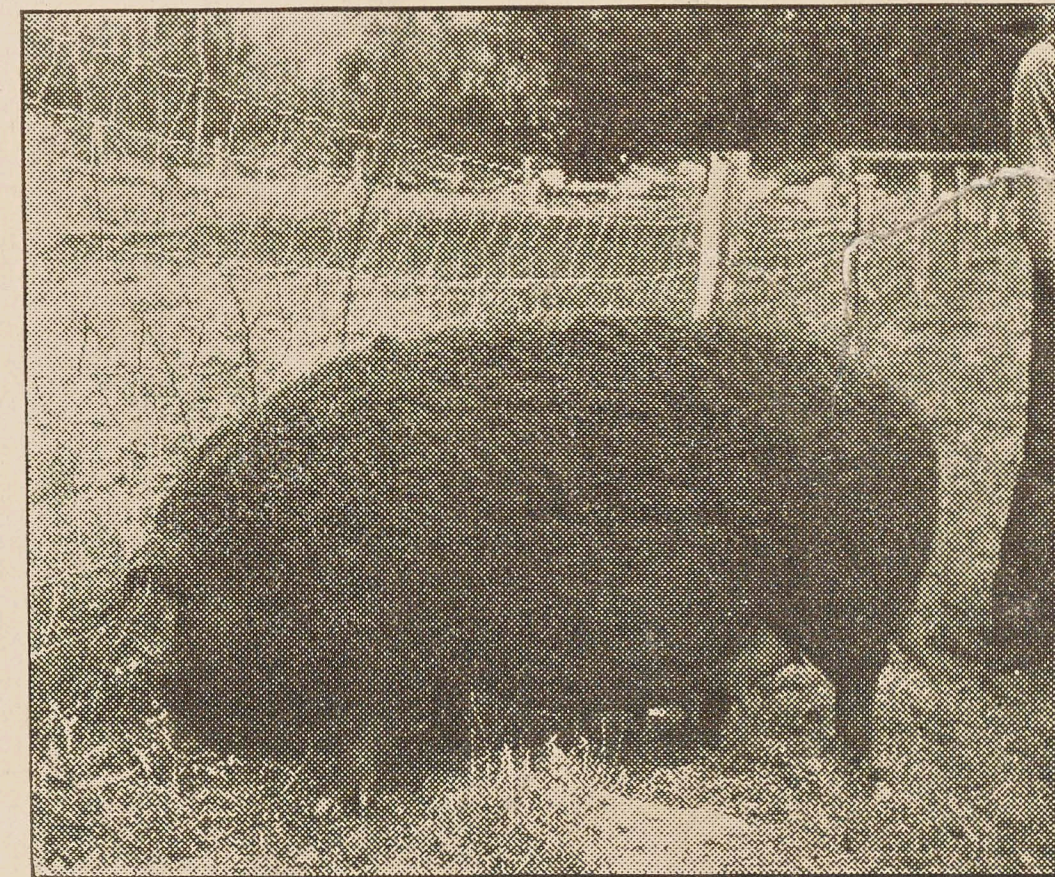

1. Breed all gilts and sows—do not kill or sell a single one.
2. Provide shelter, no matter how cheap, if good, for the sow and pigs. Give them a chance and they will do their part.
3. Breed all sows to bring two litters a year. Keep them busy.

A good Chester White brood sow.

A good Berkshire brood sow.

A good Duroc Jersey brood sow.
